

## Unisex full height cubicles at Raglan Junior School in Enfield from Decra's Barbarian cubicle range.

Designed by Enfield council's own architectural department this washroom upgrade features the Decra Barbarian cubicle system with slender aluminium pilasters anchored at the floor with the headrail acting as an interface with the ceiling. Durable solid grade laminate has been used for the panel components in cherry wood effect and the vanity units are constructed from natural granite with the wood grain laminate used for the under panels.

The end result is an extremely high level of specification closer in actuality to the type of look and feel you would expect in an office environment, but given the suggestion in the BSF guidelines to provide full height cubicles this solution meets the criteria whilst still being extremely hardwearing.

Contact Decra for other innovative solutions for schools and academies. Decra have been established for over 50 years.
