

Thomson Financial gets a classy makeover with Decra's Barbarian 2 virtual full height cubicle range.

Financial conglomerate Thomson chose the Decra Barbarian 11 cubicle system for their London offices in City Road. Flat aluminium pilasters are taken to the floor using a routed solid grade laminate interface and the doors undercut to provide air-flow within the cubicles. Maple effect laminate doors and panels are combined with stainless steel hardware for a quality over-all solution. Natural granite vanity tops with top mount china basins completes the installation.
