

Barbarian 2 cubicle system with stainless steel anti drill panel on partition

Welcome Break- Birchanger Green- M11 services Decra Barbarian 2 cubicle system

Reconstituted stone vanity top acrylic faced under panels

Welcome Break roll out Decra's Barbarian 2 cubicle system to stunning effect !!!!!!!!!!!

Working closely with the Welcome Break design team, Decra conceived this classy solution for washroom areas using the Barbarian 2 cubicle system with aluminium pilasters anchored to the ground with a neat interface. Solid grade laminate has been used for doors in a teak effect for women and a blackcurrant wood grain for the male areas. Glass look acrylic has been used for cistern duct and urinal duct panelling in green and burgundy respectively. 30mm reconstituted stone has been used for the vanity tops . Likely to be nominated for a public access loo of the year award the installation reflects a refreshing change from the usual fortress like service station washrooms ends....

Male wc's in blackcurrant colour wood grain

Male urinal ducts in burgundy faced acrylic
