

Fact file

Small but *perfectly formed !!!* Decra Burj cubicle system installed at well known cosmetics company in London.

Decra washrooms Burj full height cubicle system has been installed in the Mortimer Street offices of a pharmaceutical company.

Lightweight core fascia panels are clad with dark wood grain high pressure laminate (Decra Milano Oak Choco) and combined with a rebated hardwood edge to facilitate the flush fascia.

Vanity units and half height duct panels are also faced with the dark wood grain with the top mount china basins acting as a space saver.

Quality DDA compliant stainless steel hardware completes this impressive installation.

Burj is now available As a fully compliant PEFC specification - promoting sustainable forest management practices. Contact Decra for more details.
