

Decra's definitive office washroom cubicle solution "Burj" installed at 75 Kings Road Reading.

Architect- Barr Gazetas chose the Decra Burj full height wc cubicle system for their client Morley Fund Management. 38mm lightweight fascia is clad with melamine protected real wood walnut and white high pressure laminate faced partition panels. Decra's "Levada" trough made from Corian (this colour is called Bisque) is used for the vanity units and is configured in an L shape for the male area - showing the flexibility of the design. Burj is true full height as we use extruded sections to act as an interface at floor and ceiling. Burj forms part of the revamped "Architectura" range brochure available on request.
