

Offices Cavendish Square Decra Burj cubicle concept in real wood walnut veneer laminate

Burj 38mm flush fascia cubicles in walnut

Rebated hardwood edge stained to match fascia

Quality stainless steel DDA compliant hardware

Plush offices in Cavendish Square showcase Decra's Burj 38mm fascia walnut concept !!

Architects Rolfe Judd chose the Decra Burj walnut concept as a more cost effective solution to the originally specified 44mm joinery/stud solution. 38mm lightweight core is clad with real wood American walnut veneer laminate with a hardwood rebated edge applied to provide the linear fascia. Decra were able to conceive an interface to apply our 38mm fascia onto stud partition which demonstrates our abilities with panel engineering. Quality DDA compliant stainless steel hardware completes this classy installation. M/C Mansell Cons.
