

Eagle House, 110 Jermyn Street, London SW1 - 2nd floor ladies washroom

Ash real wood and frosted Perspex open up this ultra small washroom in London's fashionable Jermyn Street.

Architects MR Partnership who regularly specify Decra washrooms chose the Burj full height cubicle range in melamine protected Ash real wood veneer. This true full height solution has extruded aluminium sections as the interface at floor and ceiling levels and quality DDA compliant stainless steel hardware. Linings inside the cubicles and on the walls of washrooms are clad in 10mm glass effect acrylic - giving the look and overall "feel" of glass but at a cheaper end cost. This stunning solution shows the benefit of design harmony between the architect and manufacturer. Contact Decra for details....
