

Selfridges Oxford Street, London

Decra Burj 38mm flush fascia cubicle system

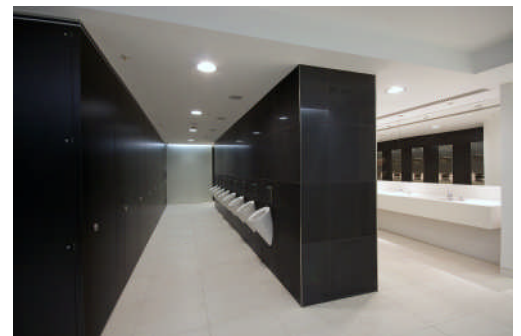

Decra Burj 38mm flush fascia cubicles in plain black Polyrey laminate

Leading London department store Selfridges gets a staff washroom makeover by Decra.

London division of Gensler Associates chose the Decra Burj cubicle system for Selfridges London's new staff washroom zones. 38mm lightweight fascia is clad with plain black Polyrey laminate for the doors and pilasters, with a rebated hardwood edge applied that is stained black to match the fascia. Plain white laminated particleboard has been used for the division and duct panels in our standard 20mm thickness to keep the price competitive. Discrete stainless steel foot and headrail ensures that there are no interface issues.
