

Project– Glasgow Casino Architect– Real Studios

This eye catching toilet cubicle solution was designed in conjunction with London design consultants– Real Studios– using a new Decra cubicle concept called Chicane. The flush fascia frontage has a slight angle from left to right which creates a play on the senses. lightweight mdf has been clad with glossy red laminate and the 38mm o/a thickness fascia is configured as a full height structure. Partition panels have a contrast colour inlay strip to house the double toilet holder further enhancing the visual experience created by this slick and contemporary colour scheme. For more details contact Decra....
