

M&S Pudsey unveil their new washrooms with cubicles and vanity units by Decra Ltd.

Architects Lewis & Hickey worked closely with Decra to conceive this classy solution for the newly extended M&S store in Pudsey. Decra's Chicane cubicle system with a lightweight 38mm fascia clad with real wood oak veneer laminate has been used for doors and pilasters with a matching rebated hardwood edge to create a flush fascia. Oak veneer laminate with horizontal grain has been used for duct panels to provide a good yield. Vanity units are constructed from solid surface material (e.g. Corian/ Avonite) with the veneer laminate used for fascia panels. Quality s/steel DDA compliant s/steel lock and 100mm s/steel pedestal supports complete this "hotel standard" concept from M&S. Chicane forms part of the Decra Architectura collection.
