

Boxing clever in Sutton...

LB of Sutton wanted a solution to brighten up the washroom and shower areas to an extension for Sutton Leisure Centre (near St Helier Hospital) for aspiring young boxers. Decra came up with the idea to use this boxing gloves digital photograph encapsulated with melamine for the cubicle door fronts, in a simple black and white colour scheme. **Loo-ART** is an innovative and novel idea to use high resolution photographs for aspects of cubicle panelling. Decra Loo-ART has been used from sports facilities such as diverse as the David Beckham Academy, visitor centres and even schools. Contact Decra on 020 8520 4371 for costings and examples of our stock images. You can also see more case study examples on www.toiletcubicles.org
