

Decra Freestyle "Junior" toilet cubicles with shaped doors and cutaway pilasters. Manorfield Primary School East London

Decra install these quirky children's toilet cubicles for a new extension to Manorfield Primary School in E14.

Designed by London Borough of Tower Hamlets in house design team, the new building features Decra Freestyle and Freestyle Junior (as shown above) toilet cubicles. Using durable solid grade laminate the doors and pilasters are shaped to provide a fun cubicle solution. Simple solid grade laminate panelling supports the washbasins and the novel soap dispensers and a red colour toilet seat add some impact to the washroom overall design. Freestyle Junior is one of numerous cubicle designs for education - contact Decra for more examples.
