

New !! ZIG-ZAG changing room concept installed at the Crystal Palace Sports Centre training pool....

Decra worked closely with architect Arup Sports Architecture to devise this solution for poolside changing cubicles at the Crystal Palace Sports complex. Durable 13mm solid grade laminate panels are post formed to create this Zig-Zag structure with matching benches cut in the same configuration as the cubicles. This ingenious solution adds interest to the otherwise plain surroundings and acts as a showcase of the skill of the Decra design and production team Contact Decra for more details or visit us at our new web page www.toiletcubicles.org
