## Queens College - Harley St, **Freestyle** wc & shower cubicles

Specialist fit out contractor City Square Ltd chose the Decra **Freestyle** range of durable wc and shower cubicles for Queens College - an independent girls day school for 11-18 year category in London's Harley Street.

Toilet cubicles and shower cubicle doors are constructed from durable 12mm solid (compact) grade laminate in plain grey with DDA compliant satin anodised aluminium hardware.

Shower cubicle doors have been installed between tiled block work partitions.

Rotary action pilaster mounted lock and indicator is used as standard for Freestyle toilet cubicles and the lock flips over onto the door - thus avoiding the need for a separate keep.

Freestyle forms part of the Decra Constructa range of modestly priced cubicles and vanity units.

Decra are chain of custody certified and can provide a fully PEFC compliant specification for the Freestyle range for BREEAM considerations.
