Decra Slabb vanity top in Corian Glacier White

Below, urinal duct panels in Mid Beige solid grade lam

## Decra ups the Ansty for Ericsson in Coventry !!!

Award winning Architects, Allies & Morrison chose the Decra Stratum flush fascia solid grade laminate system for Ericsson's new HQ building at Ansty Park Coventry. Specified as a result of Decra's installation of the same system and colours at the Royal Festival Hall, Stratum represents an elegant alternative to traditional cubicles with overlapping doors. Durable 20mm solid grade laminate is used for the fascia with a rebate applied to the doors and pilasters thus creating the linear frontage. DDA compliant stainless steel hardware maintains the quality and the simple Corian Glacier White vanity units complement the minimalist colour scheme. Stratum forms part of the Decra Architectura collection - call Decra for details of the collection.
