Royal Festival Hall front of house washrooms- Decra Stratum 20mm flush fascia cubicle system

## Royal Festival Hall showcases the Decra Stratum 20mm flush fascia cubicle system

**Architects Allies & Morrison chose the Decra Stratum 20mm flush fascia cubicle system for the front of house washrooms. Durable solid grade laminate is used in 20mm thickness with the doors and pilasters rebated to create the linear frontage. Reconstituted stone vanity tops also supplied by Decra (colour ref Crema Clara) completes the classy installation. Although one colour has been used for the laminate panels each zone has its own background mood colour.**

Reconstituted stone vanity top with mid beige under panels

Mid Beige solid grade laminate duct panels

100mm floor clearance
