

Stratum 20mm in Decra Verona Walnut and Mid Beige colours

Decra Stratum 20mm full height cubicle system as installed at Societe Generale Tower Hill

Urinal duct panels in Verona Walnut

2 Tone Stratum sets new design standard for this prestigious office fit out opposite Tower Hill tube station

Architects, TTSP chose the Decra Stratum 20mm flush fascia cubicle system as an alternative to 44mm joinery. Durable solid grade laminate doors and pilasters are rebated to create the linear frontage and 13mm solid grade laminate has been used for the partition and duct panels, with the partitions installed into channel sections top and bottom and clad with stainless steel. Stainless steel DDA compliant lock, stainless steel coat hook, s/s sprung hinges complete the quality overall appearance. Stratum 20mm is also available in standard height with a 100mm stainless steel leg. For more details contact the Decra sales department on 020 8520 4371. www.decraltd.co.uk
