

Simply Breathtaking !! new washrooms by Decra at the V&A

Architects Glowacka Rennie specified the Decra Stratum solid laminate flush fascia cubicle system for new washrooms at London's V&A museum. Glossy white 20mm door and pilaster panels are rebated to create the linear frontage and this is contrasted with 13mm glossy black partitions and black powder coated indicator and on the pedestal foot. Commissioned artwork was applied to the faceted ceiling and on the window reveals to spectacular effect. Stratum is a durable cubicle solution for public spaces and high traffic areas in general and this imaginative scheme shows that art can be combined with practicality. For more details contact the Decra sales team on 020 8520 4371. Stratum forms part of the newly revamped Architectura collection of innovative washroom cubicles and associated products. *Ends*
