

Building 6– Devonshire Square 5th floor outlook over London skyline...

Symetria 2350 cubicle system

Minimalist experience in London's Devonshire Square.

Architects– TTSP specified the Decra Symetria 2350 virtual full height cubicle system for this office refurbishment in an office quarter near Liverpool Street station– formerly known as Cutlers Gardens.

Building number 6 features the Symetria 2350 aluminium extrusions with a nominal gap at the ceiling and a 20mm gap at the floor, utilising our discrete satin stainless steel 20mm foot support. Simple scheme in black and white– with high pressure laminate doors and solid grade laminate partitions and duct panels creates an ultra stylish solution.
