

Virtual full height cubicles from Decra unveiled at the new West Kent College building in Tonbridge !!!

Decra Washrooms mid cost cubicle system Symetria 2350 was chosen by architect Dyer Assoc and main contractor Galliford Try to provide a balance between the cost objectives of the site and the need for a more secluded cubicle. Symetria 2350 combines stylish SAA pilasters and head rail with high quality, DDA compliant s/steel lock, coat hook, a nominal ceiling clearance and a choice of s/steel pedestal feet (in this case 100mm). The eye catching Aubergine and Grey colours shown here were chosen from a range of specially procured low wastage PEFC compliant laminates and the project run by Decra under accredited PEFC guidelines. The Post formed laminate vanity units provide a durable and cost effective solution. Contact our sales department for more details.
