

Symetria 2350 wc cubicle concept in cherry effect

Decra Symetria 2350 concept as installed at 155 Bishopsgate London- part of the Broadgate Ctre

Ambulant disabled cubicle with back to back stainless steel pull handles

“Classy solution for London's banking area”

Decra working closely with project architect TTSP provided this high class solution for these offices that form part of the Broadgate Centre Liverpool Street London. Flat aluminium pilasters have a nominal gap at floor and ceiling to provide a virtual full height solution with no interface issues. Cherry effect laminate doors and duct panels are complimented with stainless steel ironmongery. Symetria 2350 has been used for numerous blue chip office environments due to the comparative cost savings against traditional 44mm joinery

Cherry laminate urinal ducts with toughened glass dividers
