

Fact file

Barclays Premier Lounge the O2 Arena - Greenwich.

The O2 owners the AEG Group chose the Decra Symetria cubicle system with slim aluminium pilasters for a new corporate entertainment area at the arena.

Walnut effect solid grade laminate has been used for doors, partitions and rear duct panels with the combination with the combination of the anodised pilasters and stainless steel hardware giving the appearance of a high quality solution, but with the benefit of the durability that the specification provides.

Symetria forms part of the Architectura collection of innovative washroom cubicles and associated products and is available as standard height as shown here or in a virtual full height version (Symetria 2350).
