

# Burj Ultimate cubicles for workplace

Decra Burj is a luxury full height cubicle range offering comparable performance standards to traditional joinery.

The 38mm flush fascia is clad in your choice of veneers or plain, glossy and woodgrain laminates from suitably sized ranges. The fascia can be upgraded to 46mm as an optional extra.

Bespoke extrusions interface between floor and ceiling and a quality German designed, DDA compliant stainless steel lock and indicator with stainless steel accessories completes this top of the range cubicle.

Other options include double thickness partitions to accommodate integral wash facilities, hand dryers and superior acoustic performance.

Contact the Decra sales team for samples and any other technical information.
