

Burj PEFC

Decra's popular alternative to traditional 44mm joinery now available in a fully compliant PEFC specification !

Burj from Decra is a true full height flush fascia cubicle system with quality DDA compliant stainless steel hardware and specially designed aluminium floor and ceiling interface to provide the specifier with a keenly costed full height cubicle without any design compromises.

We are now pleased to be able to offer the Burj system in a PEFC specification in a choice of 21 plain colours and 7 woodgrains.

PEFC is a chain of custody scheme that promotes sustainable forest management - an unbroken path from sustainable forests including all stages of manufacture, transportation and distribution.
