

Stratum...contemporary solid laminate flush fascia cubicles

Decra Stratum's elegant flush front is achieved by rebating its 20mm solid grade laminate doors and pilasters.

Using 13mm SGL partitions and duct panels keeps cost down and the high quality s/steel hardware (inclusive of DDA compliant lock and indicator) complements Stratum's attractive simplicity.

Solid Grade Laminate's inherent durability and colour options combine to make Stratum equally suitable for offices colleges and academies or shopping malls.

Stratum is also available in various heights and widths including full height.

Contact the Decra sales team for more samples and any other technical information.
